SAVE is a peer-to-peer organization that focuses on the power of positive peer influences. According to a recent Allstate Foundation survey, *Shifting Teen Attitudes: The State of Teen Driving 2009*, peers are a major influence on teens – both positive and negative. Some of the concerning statistics that SAVE chapters will address include:

- Eighty-two percent of teens reported using cell phones while driving.
- Nearly half (48 percent) of girls admit they are likely to speed more than 10 mph over the limit, versus 36 percent of boys.
- Seventy-seven percent of teens admit they have felt unsafe with another teen's driving.

About the National Association of Students Against Violence Everywhere:

SAVE started at West Charlotte High School in Charlotte, N.C. in 1989 following the tragic death of a student who was trying to break up a fight at an off-campus party. Students met first to console each other, then as an organization to promote violence prevention and to work together to prevent future incidents from occurring. SAVE provides education about the effects and consequences of violence and helps provide safe activities for students, parents and communities.
